

**Open Frame PCAP 10 point touch screen equipped with touch through glass function**

The ProLite TF1615MC-B1 (15.6 inch) uses PCAP touch technology and is built into an eye-catching bezel with edge-to-edge glass. Thanks to a glass overlay covering the screen and a rugged bezel, it guarantees high durability and scratch-resistance, making it perfect for kiosk and high use public facing applications. Equipped with a foam seal finish it supports seamless integration into kiosks and provides IP65 rating resulting in dust and water resistance from the front. Landscape, portrait and face-up orientation ensures flexible mounting possibilities in almost any installation. For ease of integration, the ProLite TF1615MC-B1 can be equipped with optional external mounting brackets ([OMK5-1](#)) making it an ideal solution for kiosk integrators, industrial environments, control rooms and interactive multimedia.

**Touch through-glass**

This through glass touch screen works right through glass and can turn glass surfaces into an interactive touch screen display. Use it on storefront windows, real estate office, in-store for POS or restaurants.

**Foam Seal**

A foam seal finish (8mm) around the monitor ensures seamless integration and optimal dust protection.
