

AQD-WM1700

Wall-mounted CO2 Sensor Air Quality Controller

Overview

AQD-WM1700 Wall-mounted CO2 Sensor with large screen display It's an Air quality CO2 sensor that can be literally applied to every industry. The ideal wall-mounted CO2 Sensor and Indoor Air Quality Controller that features the ability to measure up to four-following key IAQ parameters: PM2.5, CO2, temperature, and humidity.

Features

- Wall-mounted integrated air quality controller
- Multiple sensors: PM2.5, CO2, temperature, and humidity
- Big Screen Display 17 Inch
- 24 hours real time monitoring.

Specifications

Screen	Common Screen display, Big Screen Display 17 Inch
CO2 Detection Technology	Infrared (NDIR)
Temperature	Celsius
Monitoring	24 hours real time monitoring
Detection range:	CO2 (400-5000 ppm)
Power supply	USB Charging cable 3M
Material	ABS
Product Size	365*230*40MM
Included	Main Unit + Manual + Charging cable
CO2 Sensing module	HEIMANN sensor from Germany
Chip	Arterytelc
